Well, I played some games on Swami's with no problem at all, then I managed to join on the Force of Diversion Server, which is my favorite. So for about three times my team was cheated, having our tanks and structures killed by only one shot. I had other 2 games on Dominion Guild where my team was cheated as well. here is SS showing a SOB n00b called HisMom666:

Fortunately he was kicked or banned, after cheating in at least 2 games, but the problem continued with other cheaters.

Result -> 5 games (ranked) = 5 losses.
