I don't have the money to constantly upgrade a PC whenever a new game comes out. Everytime you buy something for a PC... something better comes out the next day. Also I actually like the feel of a controller. To each their own.

Anyways the topic was not PC vs Consoles... It was BF3 vs MW3.

So far BF3 is completely sucking ass.

But yes... I know... this is Renegade fourms and most of you will probably love it and hate MW3.
