Hey DJ, nice promo man.

And too IceSword7, basically who ever the DJ is, and what he likes, is what he plays at the time he is on air.

Last night i did a 2 hour request one, where i got requests, downloaded the songs, it worked very well.

You just have too find the DJ's who like the same music as you, and will play them.

Or ask nicley, for a couple of tunes.
