Generalcamo wrote on Thu, 17 November 2011 17:30TT adds support for map_strings I believe. You are indeed correct, however that requires me to get a 4.0 server (if you get killed by something it tells you in text by what, and if it was a 3.4.4 server it wouldn't be able to find the string and the server would blow up and crash... moving to a 4.0 server would require me to update my code to 4.0... lol and yeah thats when things start getting complicated).
