is it irrelevant? nope

i was asking why you seemed hostile, especially about something you claim you don't care about

It's irrelevant to anything related to me discussing the resource manager. I don't care, again, I was making a suggestion. Last time I checked, a suggestion is a psychological process by which an idea is induced in or adopted by another without argument, command, or coercion. I don't have to care to make a suggestion. A waiter suggests different alcohol beverages to you, doesn't mean he cares about what you drink.

I said "Waste of time" in another topic. I stated my opinion. Does my opinion have to have a deep hidden reason to why I said it? No.

Seriously liquid, get the stick out of your ass and stop trying to find answers to things that doesn't exist. Congrats at helping me derail this topic to help provide you with useless information, but benefits you in some kind of matter.
