i'm sorry but i don't want him in my community; the guy is beyond weird

if you can prove to me he's back on his meds and taking them regularly we might be able to work something out

Are you sure it was him who said that? If it was then I apologise on his behalf, I know he's taking his medication atm. I spoke to him on windows live a couple of times over the past few weeks and he seems fine.

My suggestion would be allow him in, but give him a perma mute until I know for sure that he wont start shit. (I'm pretty sure he wont but I'll give him a call and clarify a few things to make sure).

I can tell you this though, he's never cheated and never will & he doesn't have the brain power to hack anyone's game of scrabble on msn let alone a server.

Good luck with Jelly.
