All I can say is I've only barked, I haven't bitten anyone yet.

Leave TmX alone, just because your sniper server fails so much does not give you the right to attack a server that players actually enjoy. You don't have the right to attack any server to be honest.

I'm really supriised Christine hasn't banned you from here yet, let's hope Olaf looks into your little "activities" sooner rather than later.

Stop attacking... TmX? Not to hate Shadow, well, actually I'm hating. TmX sucks. The server is probably crashing because it does suck... I wouldn't be surprised if Wilo was attacking it anyway, but the server is still trash. The one thing that is still good about st0rm is the sniper server. It's 4.0, no cheaters, and no lag. It's all the opposite for TmX: it's not 4.0, there are cheaters, and there's terrible amounts of lag even for people that have <100 ping...

Anyhow, I was in a game with 50 people in Jelly about an hour ago. The game crashed, randomly. Any ideas on what may have happened? <--- Sarcasm
