- MDK never cheated. Wilo fabricated it. MDK was an annoying fucker yes, but he never cheated.

maybe some one should tell shaitan this lol

You cheated in a server I was at, not anyone else, it was you. You did it on Wilost0rm's nick, you did it on Whitenerd's(I think this was the one, I don't have that access to check).

Any time btcentralplus isp would show up, we'd check into it(not to mention the partial bans that were already in place). I don't know how many times you evaded, but near the end there I stopped caring and just let you be.

You can take Xpert's word as whatever you want, but he was just as bad.
