I'm seriously about to just program a damn anti-cheat myself. Wouldn't be anything too fancy ... so it shouldnt be a 4 month process.

We're not coding virii. Or are we?

I have the support of over 75% of the community --- and the support of some of the major "figureheads" in the Renegade Community.

Iron-Fart, thank you for your support. WE will win this one. Not the opposition.

Cheaters ... I'll see you in the battlefield. Beware of the |NINJA|'s ... we can still whoop your ass even with a cheat.
