bigjimer34 wrote on Sat, 17 March 2012 21:41i've tried this, and it does not work. does anybody know how long it will be until this will be fixed? it is making for some really bad gameplay. i think i've tried everything and still no improvements. i've crashed 2 times now, and fps drops all the time after about the first 30 sec into the game. To the people experiencing FPS drops, try going to "options" then "configuration" then "expert mode" then set anti-aliasing mode to "none" and see if that does anything to your FPS issues.
