---

I know alot about the law since my dad was in the police and my nan was a lawyer... And i live with my nan and dad... quite annoying cauz my nan wants me to become a lawyer lol.

Search google for aliens, half of them have that. And the game Aliens vs Predator uses it, then Aliens the movie uses it.

Honestly there is 0% chance I will get sued since there are so many of the same design accross then internet, meaning no one will be able to claim the monopoly of the design.

Ok, can we try and get this thread back on topic?!
