OK, just so you know who I am, im the head admin for the blueyounder renegade servers(big woop, I know   ). We are planning on using the RenGuard tool on the server once it has been released. Just one question, what sort of time frame are we talking (im not expecting a date here). a week, month, 3months, 4 years? Im really getting sick of the cheaters. We have had to double our numbers of admin just to find the cheaters, and that too much work for me
