adavanze i suggest you to mail fox, ask if you can put the model into your mod. explain them that you wont take out any money from the mod and this is only for fun buisness... try to contact them, ask them and show them the model. the word that they can say its change a little bit the head...

oh and i dont post evrydays.. but as i see the forum didnt really changed. i tought evrything could change; ACK doing a real moderator job... etc.
