If each question is about something else/unrelated to the previous but by the same user, that is debateable.
TBH I prefer it if people split it up if it's unrelated. If I was a mod I might even do so if it is posted in a previous topic xD
Makes it not only easier for others to search for later but also makes sure the topic is about 1 thing instead of multiple

PS. Might be a programmers pov though. As one, I want users to seperate every bug in a seperate report. Same for questions etc.
