Yeah, I mean you got fired from MP-Gaming. How stupid do you have to be to make that happen.

Oh wait, you just have to be a terrible renegade moderator, destroy the Teamspeak before getting fired, then follow it up by ddosing that same server that "you cared so much about".

Glad to see some initiative on your part to become a better you.

Keep it up, champ.

This isn't about that, but if you insist we can revisit that whole deal. I bet we can get this up to 20+ pages easy.

I'll stay on topic too: Walldo's shitty moderator/administrator abilities. I do believe that's what started all of that drama. He had the gall to talk shit about my moderators, then threatening to "remove me" repeatedly. Yeah, he's a great administrator there.

Teamspeak: That was after reborn z-lined me in a bullshit way. He asked me to join irc to talk about the issues, then *BAM*, I'm z-lined. I set that teamspeak up, no way in hell were you retards keeping what I made.

By the way you little tranny fucker, "ddosing" never happened. The only one that got flooded, by anyone, was myself. Get bent you ignorant fool.
