robbyke wrote on Sat, 16 June 2012 21:31 that's true but i can't run a debug on the open server it might cause some unexpected results

i guess i'll just have to wait

What unexpected results are you referring to? The main thing debug mode is probably going to cause is a slight performance decrease due to extra overhead compared to the release build. Other than that, I dunno what you could be referring to...
