Taz wrote on Sun, 01 July 2012 18:09 They might be textured, but most of it looks like filler texture

The reborn beta up here was released back in 2010 AFAIK. Most of the major bugs and nasties were fixed by early 2011 (shortly before i left)

All that was left was some balancing and you would've had the Reborn Vehicle Beta by summer 2011. But it was not to be.

Reborn beta was released in 2003.
