Logs with context.

You SOB, you posted logs!

Engaging deflective armor protocols!

Post counter logs that prove innocense:

Warning!!! If anyone actually reads the logs, it shows you in an even worse light, and shows that Generalcamo was actually trying to help you. At the very least, it does not prove that you are not a retard.

Have mini-stroke.

Suddenly, the logs now absolutely 100% clear your good name, and show Generalcamo to be a complete asshole.

Mission accomplished, you are quite the chap!
