This is one awesome puppy.

It's basically a moba (multiplayer online battle arena) similar to dota, LoL and HoN but with a twist, it's in 3rd person mode.

Here's a commentary on the game: <http://www.youtube.com/watch?v=-4hL9ct2QEk>

The game is currently in closed beta, if you'd like a invite either post below or send me a private message. I have 5 available.

Additionally if you'd rather swallow your pride and not ask me for one, you can buy the game here: <https://account.hirezstudios.com/orders/smitegold.aspx>
