Xpert wrote on Wed, 15 August 2012 20:50The flame tank fix should be a server side option. I didn't think the flame tank right click was a bug. I also thought it was just part of the game and it was great in taking out infantry at close range. Now it's useless against infantry.
Point is that it does fixes some other bugs with weapons muscles. So, if you need it changed, you can. Just mod your server. Afaik TT delivers the tools you need.
