Subject: C4 reload/switch bug
Posted by Major-Payne on Fri, 17 Aug 2012 11:02:20 GMT

When you toss a remote, a proxy (or a timed c4 as a hottie/tech) and you switch to another weapon and then back, theres about 4 seconds of idle time on whichever mine you are switching back to, while if you don't switch weapons the reload time is 1 second.

I assume this is a bug.
