No, I didn't realize some of you didn't use the correct URL.

Use <http://www.renegadeforums.com> instead of the [n00bstories.com](http://n00bstories.com) URL and you shouldn't have any problems. phpBB doesn't like be accessed via multiple domains, so when I get a chance I'll hack something together to make sure you're coming in correctly and if not, change you over.
