<http://www.ultraaow.com>

Hey guys, just here to report that the UltraAOW NewMaps server is now running some new modifications

We have a live ranksystem in place which records on our website over here.

It was designed by Hex and Hawk setup that page for MPF

The Server Information page contains some info about hardware, rules and maprotation.

We're also running a custom Veterancy System which grants players and/or their vehicle some extras when reaching certain levels.

See the page for more details

The Team behind UltraAOW can be viewed here.

The new coolblue theme on the site was done by Alexrirak.

Greetz zunnie
