It would be greatly appreciated if people stop bringing up RenCorner up in this forum for the sole purpose of laughing at it. We're not trying to compete with any community directly, we're just trying to excel at providing a server that people who play here actually enjoy.

Like i've said before, if you don't like it - cool, go play somewhere else. If you enjoy it and aren't a douchebag, you're welcome to play. I don't care if you were a cheater, made cheats, or if you're a pedophile. I give everyone a chance. I've told those who do shady shit to leave it at the door. MDK has actually been cool with that. DJ was the one who lost control there.

That topic is hidden. If you wanna see what was in it, let me know i'll be glad to give you logs. I don't give a shit. It was hidden so that it would help circumvent the amount of trolling we've been getting from these 2, and we've told them to stop. Having some of this shit has actually prompted us to fix a few forum permissions (like replying in mod apps to prevent spam/flaming)
