liquidv2 wrote on Thu, 27 September 2012 11:18it's the American way we have a day every year called Columbus day, a day to celebrate the guy from Europe that discovered North America except he didn't actually discover North America, because vikings did hundreds of years before he even got there

he killed millions of natives with his weapons and through disease the world population at that time was far lower than it is now, and proportionately he killed far more people than Hitler and all the Nazis combined

he gets his own holiday

fck thats off topic ... that E-std is melting your brain get to clinic asap ...
