Awww... Why change the truth so it fits your description?! i was a Havoc, they were 2 Flamers and 2 Artis in our Base, so i outsniped the 2 Artis including their Drivers while the Mobius took out the 2 Flamers. OFC this all happened after u decided to be a whiny pussi and rq instead of playing with the team, but hey np, we didnt need ya and your \*skills\*

lol you're still a retard for buying a havoc in that situation. congrats on it working 1 out of 10 times against morons. one mobius could never kill two flame tanks on canyon in a server not populated by morons. a havoc could never kill two arties in that same setup. the fact that you won is absolutely baffling but congrats, you suck cock at renegade.
