http://multiplayerforums.com/index.php?/files/category/1-renegade/

After a day or of work re-adding a lot of Renegade downloads it is now officially opened again.

I added all plugins for ssgm 4.0 i could find there under the Dedicated Server category, check it out if you are a server owner

Also lots of mapping stuff was added.

If you made a file feel free to submit them

Greetz zunnie

PS: I am not updating game-maps anymore for anyone that wonders. The public TTFS will be though.
