```
bool BuyRailgun::OnChat(int PlayerID, TextMessageEnum Type, const wchar_t *Message, int
recieverID)
{
    GameObject *obj = Get_GameObj(PlayerID);

    if (obj)
    {
        if (wcsistr(Message, L"!buy railgun") == 0) {
            Commands->Give_PowerUp(obj, "CnC_POW_Railgun_Player", false);
        }
    }

    return false;
}
```

wtf does that have to do with Ammo or Clip\_Ammo?
