What.. the.. fuck....

We are all adults\young adults..

I spent 45 minuets reading this topic.. I laughed.. Got confused.. ate food.. brushed my teeth.. and think.. the fuck?

1. We are fucking bitching over someone stealing user group colors..

2. We are fucking bitching over someone using the same forum skin.. that 25 thousand fucking forums use.

3. And about Renegade Server\idea copies.. Can you please tell me what your server does that hasn't been done before or what can't be done in 10 minuets worth of coding?

4. Agent: Yes.. RenCorner is pretty fucked up. They offer positions for dumb shit(Money, flooding, Advert). And they ban if they get alittle butthurt.

5. Animoski: No one gives a flying fuck about your mother fucking in-game users.. You bring this shit up in every fucking argument. No one cares bro. There are servers on CS:S with maxed slots year long. Are they some how special now?

6: And all these other kids who are posting shit like "best reply ever!".. go jump off a building.

7: Where the hell are the moderators on this forum?

Please excuse my language.

I did not write this to offend anyone what so ever.

This post was written to notify everyone on how stupid and idiotic this topic and the posts are.
