like MDK pointed out, the other team had no ref and no money

throughout the video, you kill a havoc that stands 100% still, a deadeye that hops out of the barracks in a straight line, a tib sydney running in a straight line, and a hotwire running in the open (i believe)

watching euro fraps is always interesting; the kills come afterwards and whatnot
you shoot next to the flinching dude in the barracks and he drops dead lol
just looks weird

and MDK clearly doesn't have a video; he's going off of testimony
why none of them frapsed is beyond me
