please tell me someone saved all of shaitan's posts

EDIT:

[21:06:06] <Trojan> (09:04:17) (Animoski) but understand how ive been feeling since you became co-owner that billabong and applez have both without reason made fun of me, talked shit behind my back and all i ever did was try to confront them but it's been impossible with their egos and habbit of coming to you when shit goes down

HAHAHAHA, I can literally always pick out Cyanide ingame because he complains in some form about me or the Jelly staff in general... you got mad over HIM? (and Applez is his rl friend)
