I never did get the impression that MDK cheated but his behaviour was always weird.

I don't think Iran cheats either, but I do believe he is a bit of a troll at times. I don't think he deserves to be banned for it considering there is no proof of him cheating. I do agree that it is giving MPF relatively bad publicity but it doesn't appear to be having any effect on their player base. It's been said many times before, it is their decision to ban who they want and when they want for whatever reason they see fit.
