lol

I don't need to hurt you. I don't know who you are IRL and judging by your e-janitor attitude, I wouldn't want to. I could care less if my text on your screen provokes any kind of emotional response in you. I'm just giving you, as always, my unfiltered opinion about people. That might rub you the wrong way, but that's okay. You'll get over it.

I'm not sure where you're pulling "mad" from. Did you forget your medication today? Or did you just forget that you weren't going to respond to my posts?

I don't think I'm the mad one here. You can stop replying any time you wish - I certainly won't force you to do it, but I do find it amusing that you're contradicting yourself in each post and trying to be an Internet Psychologist. Let's see if you post again. Be sure to tell us about how your only life achievements are being a Renegade moderator because you spend your days telling a bunch of 18 year olds how awesome they are!
