Any mod team with cash should check this awesome guy out. You might recognise his name as a Westwood studios guy who actually worked on Renegade...
Worth checking his site out just out of curiosity or professional interest...

**Eric Gooch**

To my past co-workers in the gaming biz, I'm back in the U.S. now, and am officially cutting the corporate cord. I'm going to stay out in the countryside here in Nevada, and will be doing remote freelance/contract 3D Modeling and Concept Art. If in your travels, you bump into anyone that's looking for help on their projects, point them towards goochvision.com. Wish me luck! — in **Spring Creek, Nevada.**
