Ethenal wrote on Fri, 18 October 2013 19:46 In the first mission an engineer "places" C4 on the wrecked light tank that's blocking the convoy, but I'm pretty sure all they do is play the animation for "putting something down" (i.e. Captain Duncan giving you the ion cannon) and spawn the C4 at his feet. That or they just don't show any C4 object at all and just blow up it up with an engine function. I don't remember.

I remember messing with some scripts for co-op and I think that was just a cinematic script playing for the engineer c4 thing.
