Jesse you have always been a hot and cold type person. You run hot more than cold being totally straight with you. There were times when you were nice to me and other times when it was obvious you felt you were better than me. I didn't care either way because I considered the source, you.

Overall you stick out in Renegade as one of the problem "high strung" players. You needed to be "reeled" in at times when I was at Jelly.

Coming on here to gain support, not going to work. For one you just entertain the self proclaimed trolls. Next I don't think you are going to find anyone that will side with you against Liquid and Ethenal. I have known both for a very long time and the one thing I know is true with both of them is they are straight shooters and pull no punches. They tell it like it is. I also know it takes a lot to push their buttons which apparently you have. So earning a global ban to me means they are fed up with dealing with you. After all it is a privilege to be on one of their assets THEY are paying for. I think the statement here is regardless of where the conduct was, they don't want it anywhere and are not going to take the chance of it happening again.
