I do, however, recall Anonymous being banned and I do remember you saying it was because she said liquid had a small dick or something, but contrary to your beliefs I find it very unlikely raven or any of the more fair members of our staff would let something like that occur without a better reason.

crypt warned you something like four months ago, he said he can post logs for proof in our mod forum but that obviously wasn't necessary for our purposes. He claims you were fully aware you were done with your next transgression, and you accepted his terms. he could of course be making it all up, but given your word against his, I would say I'd believe the aussie over mr. can't edit timestamped logs properly

lol you responded to one of the possible things you could have .. good job you are pretty terrible at this.
