any chance this would fuck with the current setup for those that have vs 2012 right now?

out of nowhere my shit fucked up on me, I lost my presets, le crashed on load of map, and my game says it can't connect to the update server when I start it.

I thought maybe it was something I did, or that somehow the registry got messed up but I couldn't find anything wrong at it.

I'm currently reinstalling ren...
