We got a few opinions, which was good. But there was little in the way of direct suggestions, it was more or less basic guidelines by which to change the concept. And although things like that are helpful, it just seemed more vague than anything else in this instance.

Well I would hope the members of the Renegade community could muster up an opinion on the MCT considering the fact that it's something in Renegade. But in your case it seems that you're too busy being an ass to do much of anything.
