Subject: Vehicle WEAPON names no longer shows up Posted by Jerad2142 on Tue, 29 Apr 2014 15:41:21 GMT View Forum Message <> Reply to Message

More details below. 3.4.4:

4.0

I've changed this string several times and even set it on the weapon definition (just in case you guys changed how it was set) but nothing seems to work. However other changes I have been making are persisting (I changed the vehicle weapon and that came across as well as other health and engine changes). I've also tried using different strings but nothing seems to be change the weapon name in game, it definitely doesn't seem to work as it did in stock Renegade.
