In AR we have;

Weapon;

- IconNameID: None

Vehicle;

- TranslatedNameID: IDS_Vehic_Soviet_ApocTank_Name
- VehicleNameID: IDS_Vehic_Weap_Soviet_Apocalypse_Tank

So why it's not working for you I don't know, but it certainly works for us using those fields. I even tried changing it and the change was replicated ingame... maybe make 100% sure the IconNameID is set to None (ie: blank) rather than any value? Maybe that overrides it somehow.
