danpaul88 wrote on Wed, 30 April 2014 09:12Jonwil added it in 2009 with a comment about fixing a bug in the FDS along with a bunch of other changes, presumably it was hitting some invalid indexes somewhere which did bad things but the change would appear to have some flawed logic. You'd have to ask him what exactly it was fixing but I suspect that, given it was 5 years ago, he probably won't remember.

I'm pretty sure if the FDS tries to grab a non-existent string ID it just crashes; or at least that's what I've seen in the past.
