roszek wrote on Wed, 02 July 2014 23:58 That would have been helpful That's okay because I like the idea of manually canceling a swap request.

Does that in mine when you just type !swap again. Also have it where you're swapped to the other team if teams are unbalanced.

Not trying to slam your topic lol. I just didn't know people had this issue still in the current build in TT XD

But good job nonetheless.
