UltraAOW Imperial Age Weekend

In the UltraAOW Imperial Age Weekend the rotation consists of only ImperialKaskins maps which were recently updated to version G10. (Unit Information for Imperial's G10)

New in G10 is the ability to deploy several vehicles and blockades with the Q, N, B keys or an Anti-Tank mine with M using the Sapper character. Please download and extract to your data folder the keys.cfg from here.

This will make some interesting games once again. Be there!

All other settings are standard UltraAOW Settings as described on the website.

When?

The Weekend of Friday 29 August till September 1 Monday.

TT 4.1 Update is Required

The Tiberian Technologies Update 4.1 for Renegade is required to play on the server.

You can download it on their official website if you do not already have it.

It adds lots of extra's, anti-cheat and a ingame automatic map-downloader, awesome stuff!

Active Server Plugins

Of course the server will run our own MPF_NewMaps.dll plugin which adds additional functionality to the server such as Veterancy and Special Crates & Power-ups.

Other plugins running on the server are for example the Team Donate and !ammo purchase ability every minute. Type !cmds for a list.

You can also type !swap to change teams with someone on the opposite team, or to balance the teams.

For a full list of modifications and adjustments please visit our Website.

Mappack is Available

You could download our Mappack before joining the server. This ensures you have all the maps already.

Then you will not experience any ingame download dialogs which may take long if you have a slow(er) connection.

All you do is click Next, Next, wait for it to install the maps and then you're done and ready to join.

Thanks
