I FINNALLY GOT IT I like it a lot except for one thing. I dont get why all of the guns even the pistol are so powerfull yes its more realistic but renegade isnt supposed to and you must have some differince in there strengths i mean ive already be accused of cheating 4 times on this thing and ive had it for not even 4 hours but overall good job guys expecially on the maps i assum ACK did them so good job dude And to who ever did the textures and models of the hind and other vehicals wow those are quite incredible. GREAT JOB TO THE ENTIRE REN ALERT TEAM CANT WAIT FOR MORE PATCHES TO FIX THE FEW ERRORS I CAN SEE>
