---

I would like to thank Jerad2142 and Daniel Blaney for their contributions to 4.4 (If I missed anyone else who contributed to 4.4, sorry)

Full list of changes made since scripts 4.4 was released:

- \* New and improved scripts from Jerad
- \* New and improved scripts from Dblaney
- \* Small fix to TextFileClass
- \* New engine call Set\_Camera\_Host\_Network and various related fixes to make it work properly
- \* A fix to the targeting code to solve an issue with certain AI scripts

If you are running 4.4 (or any earlier version) you will be automatically updated to 4.5.

People wanting a full installer, a server download or a tools download can find them on the Tiberian Technologies website ([www.tiberiantechologies.org](http://www.tiberiantechologies.org)) in the downloads section.

People who need DA will have to wait for a 4.5 compatible version of DA to be released.
