There still were Jelly, BlackIntel and n00bstories.

Why did they all turn off their servers?

I've fucking hated the queue on full servers, now i would be glad to see it one more time

Memories from good old times in the only game i've played for more than 15 years...

playerbase got smaller, servers are expensive, jelly shut down last year

renegades still gets 20+ players regularly though in rencorner.
