His funeral was today and while it was very sad, it was very nice to see how much his family loved him, Especially his nieces and nephews who he talked about so often and with so much love. He was mentor to me in so many ways. I'm so sad that he has left this Earth. He was the best of us and so free with his time and emotion. Without "sunny Zunnie" I wouldn't be the person I am today, have my job or the skills required for it.

Perhaps a little overly poetic and sentimental, but I left a copy of renegade on his casket. I spoke with his family and told them of his legacy, achievements, accomplishments and the impact he had on so many people.

I will miss him deeply.

That's a great thing you did for him. I only had the pleasure of speaking with him a few times and he was a really amazing person. He was always quick to help those that needed it.
