Some highlighted features of this:

- 3 Different Themes Selectable From Menu!
- Buddy List with Check! When your buddy joins in a server, you will be notified!
- Added special "masterlist://" protocol to join any server. Please contact me for usage documentation for this.
- Now you can sort the server listing by clicking column headers.
- Multilanguage support! (English, German, French, Russian, Italian, Turkish, Arabic)
- Discord Rich Presence support!

Try clicking or typing the following URL to your browser after you registered protocol (you must have admin rights to register protocol).
