npsmith82Only thing i don't like about the n00bstories radio is the bitrate it's streaming in. On 56k it takes 10 seconds to buffer 5 or so seconds, then you have the 10 second pause again, whilst it's buffering the next part.

Any chance you could lower the bitrate? I realise this will lower the quality a little, but i'd like to listen occasionally.

hehehe still no BB or cable.. damn man
